

Standex | Strong.

Reliable reeds.

Standex Electronics produces a broad range of magnetic reed switches which are RoHS compliant - and many are UL recognized. From dry circuit switching to 70VA, from switching microvolt levels to switching 1,000 VDC, these switches are capable of tens of millions of trouble-free switching cycles. Our unique, patented, and highly automated production process allows us to produce very cost-effective switches with outstanding physical and electrical characteristics. In fact, our GR150 is the world's smallest magnetic reed switch

That's **Standex** | Strong.
