

About us

Standex Electronics developed its Toolshop in 1996 because of a growing demand for high precision quality tooling for our reed based sensor products. For more than 20 years this service has been expanded to support our customers demand and requirements.

We offer a complete package providing, prototypes, planning, tool design, manufacture of single & multi-impression mould tools, progression press tools, pressure die-casting tools. Special purpose tooling, tool repairs & maintenance, jig & fixtures.

Our team of highly skilled and experienced employees will work with you providing a high-quality reliable service to find the most cost-effective manufacturing solution for your needs.

Our continued investment in machine tools and computer technology allows us to offer the most advance techniques available using fully integrated CAD/CAM software, wire eroding, EDM machining, CNC milling, and a range conventional machine tools.

We operate from our purpose built 500 square meter premises based in Großbreitenbach Germany.

StandexMeder Electronics GmbH
Ilmenauer Strasse 7i
98701 Großbreitenbach / Germany

Tool Shop

Machines and equipments

Sink EDM machine
EXERON / INGERSOLL
Machining stroke max. 620x420x400 mm

Milling machine
HERMLE / BRIDGEPORT
Machining stroke max. 1000x500x500 mm

Wire EDM machine
SODICK / MITSUBISHI
Machining stroke max. 530x370x265 mm

Grinding machine
ELB-SCHLIFF / ZIERSCH
Machining stroke max. 800x400x475 mm

Measuring machine
ZEISS
Machining stroke 450x450x400mm

**Several state-of-the-art lathe,
milling and grinding machines**

Stamping tools

Progressive stamping tools
for lead frames

Stamped parts
for housing shields and contact pins

Injection mold tools

Design parts
with high quality
surfaces

Technical molded parts
Gearwheels, spindles, frames and holders

Optical components

Insert molded parts

Specific tools

Die-cast zinc tools

Transfer molding tools

**Various types for prototyping,
molding and stamping**

Low-pressure injection molding

Machine and assembly services

Stainless steel tube machining
cutting, laser welding,
marking

Quelle: joke Technology GmbH

Manufacturing of electrodes
in copper or graphite

Fixture design and production

Tooling repair and maintenance

**Development, design
and construction**

**CNC design, simulation,
verification and integration**
